

STAAR MASTER[®] SOLUTIONS FOR PROMISING STUDENTS

TAKE HOME STUDY PACKS

WE ARE ALL IN THE MIDST OF UNPRECEDENTED CHANGE.

Children in economically disadvantaged schools are even more prone to be affected by the coronavirus pandemic. Teachers, administrators, and parents hold growing concerns about how to ensure their students' academic progress continues while at home.

We here at ECS Learning Systems, makers of **STAAR MASTER[®]**, are equally concerned for our school partners. We know there will be a significant requirement for ELA and math review and remediation for many students, and that is

why we have developed solutions to address the current need. We are a company dedicated to the advancement of young learners, and we back that promise through our mission statement that commits to helping ALL students achieve academic success. Within a week of the pandemic, we were able to mobilize our operation to meet the needs of our school community by providing At Home Student Packs. We can now immediately ship **STAAR MASTER[®]** work texts to schools in individual student packets for distribution to students who have now become distant learners.

WE OFFER
MATH
READING
WRITING
SCIENCE
SOCIAL STUDIES
GRADES 1-9

STAAR MASTER® work texts comprise a suite of curriculum supplements that feature high quality, 100% TEKS-aligned content. Research-based and efficacy-driven, **STAAR MASTER®**'s line of products successfully helps students process instruction, apply knowledge against the standards, assess comprehension, and diagnose and fill knowledge gaps. Our solution is aptly designed to help underperforming students succeed.

STAAR MASTER® products provide complete coverage of grade-appropriate knowledge to prepare students to advance to the next grade level. We are proud that our At Home Student Packs enable **equity and access** for ALL students.
